

FROM THE DIRECTOR
U.S. CENSUS BUREAU

Our records show that we have not received a response to the 2000 Boundary and Annexation Survey (BAS) we mailed to you.

Census 2000 is here. The Census Bureau will use the results of this survey to ensure that we have the correct name and boundary for the presentation of data from Census 2000. Please complete the BAS questionnaire; verify and, if necessary, update the boundary shown on the map; and return both to us promptly so that we can identify your jurisdiction accurately in Census 2000. If you have added territory that extends beyond the coverage of the map(s) you received, please write or telephone the Census Bureau at the address or telephone number shown below. We need all boundary information by March 1, 2000, to ensure that it is shown correctly in the data tabulations.

The BAS is very important to our preparatory work for Census 2000. If you need help with this request, please write or telephone our staff at the address or telephone number shown below. The Census Bureau is grateful to you for your help.

Sincerely,

Kenneth Prewitt
